

CUANSWAP (CUAN)

Combination between real usecase and DeFi platform

Abstract

The CUANSWAP (CUAN) project is the embodiment of our vision to create an innovative and inclusive decentralized blockchain ecosystem. CUANSWAP (CUAN) aims to address various challenges currently faced in the crypto world, while providing beneficial solutions for users, developers, and token holders.

With advanced core technologies, including Smart Contracts and reliable consensus algorithms, CUANSWAP (CUAN) enables the creation and launch of decentralized applications (DApps) with low costs and high speeds. We view blockchain as a tool that can help solve real-world problems in various sectors, ranging from finance to logistics, and from entertainment to public services.

The CUANSWAP (CUAN) project understands the importance of security and compliance in the blockchain environment. We have taken the necessary steps to protect the network and user data, as well as comply with relevant regulations in various jurisdictions.

In this whitepaper, we will provide an in-depth overview of the technology, goals, roadmap, token supply allocation, team, and many other important aspects related to CUANSWAP (CUAN).

We invite you to explore our project, join us on our journey toward a more advanced and inclusive blockchain era, and become a part of the rapidly growing CUANSWAP community.

Let's together create a better future for blockchain.

Combination between real usecase and DeFi platform

1. DeFi (Decentralized Finance)

CUANSWAP (CUAN) enables users to leverage blockchain technology in decentralized financial services (DeFi). This includes access to decentralized loans, cryptocurrencyasset exchanges, and passive income through yield farming. Users can optimize theirinvestments using the DeFi services provided by CUANSWAP (CUAN) without intermediaries.

2. Staking

CUANSWAP (CUAN) allows users to stake their CUAN tokens. This helps maintain network security and consensus. By staking, users support the network, and in return, they receiverewards in the form of more CUAN tokens. Staking in CUANSWAP (CUAN) is one way userscan actively participate in the network and earn rewards over time.

3. NFT (Non-Fungible Token)

CUANSWAP (CUAN) supports the development, trade, and ownership of NFTs. Users can create unique NFTs to represent their digital assets, such as art, music, or collectibles. Additionally, CUANSWAP (CUAN) facilitates an NFT marketplace where users can buy andsell their NFTs. This creates opportunities for digital artists and collectors to monetize their works and expand the digital art market.

4. NFT Marketplace

CUANSWAP (CUAN) provides an NFT Marketplace that allows users to buy, sell, and tradeNFTs. The marketplace covers NFTs from various categories such as digital art, games,entertainment, and more. Users can explore and transact with NFTs within a secure and transparent platform.

The CUANSWAP (CUAN) project leverages blockchain technology to provide solutions in varioususe cases, including decentralized financial services, gaming ecosystems, and the digital art market, thereby delivering significant benefits to users and token holders.

CUANSWAP Goals

Problem Solving

The CUANSWAP (CUAN) project aims to address several critical issues within the current cryptoecosystem. We are committed to:

- **Enhancing Security:** Providing a safe and reliable environment for users by integrating the latest security technology into our network.
- **Improving Transaction Speed:** Reducing transaction times and high associated fees commonly linked with blockchain networks.

- **Increasing Accessibility:** Making blockchain technology more accessible and usable by a wider range of users.

Target Markets

The CUANSWAP (CUAN) project is committed to accommodating various market sectors, including:

- **Business Owners:** Providing reliable and fast crypto payment solutions for business owners and merchants.
- **App Developers:** Offering a platform for developers to create innovative DApps affordably.
- **Token Holders:** Providing opportunities to earn rewards through staking and participation in the CUANSWAP ecosystem.
- **Digital Art Enthusiasts:** Encouraging the growth of the digital art market by facilitating the creation and trading of NFTs.

Benefits for Users and Token Holders

The CUANSWAP (CUAN) project pursues several benefits for users and token holders, including:

- **High Security:** Users will enjoy higher levels of security across the CUANSWAP (CUAN) platform to protect their digital assets.
- **Low Costs:** Transactions are cheaper and faster, allowing users to save on transaction fees.
- **Network Participation:** Token holders can play an active role in the CUANSWAP (CUAN) network through staking and transaction validation.
- **Innovation and Creation:** Developers can use our platform to create innovative applications and monetize their digital art.

We aim to achieve these goals through the development of robust technology, collaboration with strategic partners, and strong adoption from the blockchain community and users.

Why CUANSWAP?

Innovation and Vision

At CUANSWAP, we believe in the power of blockchain technology to revolutionize the way we interact with digital assets and decentralized applications. Our core mission is to push the boundaries of innovation and provide a decentralized ecosystem that empowers users, developers, and businesses. Here's why CUANSWAP stands out:

Cutting-Edge Technology

CUANSWAP leverages state-of-the-art technology to offer a seamless experience. Our use of advanced consensus algorithms, smart contracts, and security features ensures that users can trust and rely on our platform for a wide range of applications. We are constantly exploring new technologies to stay at the forefront of blockchain innovation.

User-Centric Approach

User experience is at the heart of CUANSWAP's philosophy. We are committed to making blockchain technology accessible to everyone, from newcomers to experienced crypto enthusiasts. Our user-friendly interfaces and low transaction costs make blockchain technology easier to navigate and more cost-effective for everyday use.

Security and Trust

Security is paramount at CUANSWAP. We prioritize the safety of user assets and data, implementing the most robust security measures to protect against vulnerabilities and threats. Our commitment to transparency and trustworthiness is reflected in everything we do.

Community and Collaboration

The CUANSWAP community is a driving force behind our success. We actively seek collaboration and feedback from our users and the wider blockchain community. By fostering a strong, supportive community, we can continually improve and adapt our platform to meet the evolving needs of our users.

Pioneering the Future

CUANSWAP is not just a participant in the blockchain space; we are trailblazers. We aim to pioneer the future of blockchain by embracing emerging technologies, leading in innovation, and setting new standards in decentralization. We invite you to join us on this exciting journey.

Tokenomics

CUAN Token

The CUAN Token is the primary cryptocurrency asset within the CUANSWAP (CUAN) ecosystem. Here are the details about the CUAN Token:

- **Name:** CUANSWAP (CUAN)
- **Type:** BEP-20 Token
- **Total Supply:** 100,000,000 CUAN
- **Chain Network:** BNB Smart Chain
- **Contract Address:** 0x33Ddf4b5E19b7Cbe69410CFaA2B69aE1F9eBcAD8

Primary Functions: Used for payments, staking, network participation, and as a medium of exchange within the CUANSWAP (CUAN) ecosystem.

Token Supply Allocation

The allocation of the CUAN token supply is as follows:

- **90% Supply lock 1 year**
- **6% NFT Reward Staking**
- **2% Private Sale**
- **1% Airdrop**
- **1% Team**

Staking Mechanism

CUANSWAP (CUAN) provides a staking mechanism that allows token holders to earn rewards. Staking CUAN requires users to lock a certain amount of tokens in their wallets for a specified period. Rewards are given based on the duration and the amount of tokens locked.

Token Burn

CUANSWAP (CUAN) is committed to maintaining token sustainability and reducing supply through planned token burn processes. This is done regularly to control inflation and maintain the stability of the CUAN token's value.

Transparency

CUANSWAP (CUAN) is dedicated to maintaining transparency in the allocation and use of funds received through token sales. Regular reports will be provided to allow token holders and the community to monitor and understand fund usage.

Community Participation

We encourage active community participation in decision-making related to tokenomics. We will engage the community in voting and proposals concerning significant changes in the CUANSWAP (CUAN) tokenomics.

Listing Plan, Bitunix, Azbit & CoinMarketCap

In 2023, it seems to be an exciting year for crypto enthusiasts with the planned Private Sale by CUANSWAP (CUAN) set to be listed on three prominent crypto exchanges, Bitunix, CoinMarketCap. This marks a significant step in CUANSWAP's journey to gain recognition in the highly competitive crypto market.

The listing of CUANSWAP on Bitunix, CoinMarketCap will provide broader access to crypto traders. CoinsBit, as one of the largest and most reputable exchanges in the world, will open up opportunities for CUANSWAP to reach a global audience. On the other hand, CoinMarketCap, with its focus on innovative digital assets, will help strengthen CUANSWAP's position in the Asian market.

The planned CUANSWAP initial public offering is expected to be one of the most highly anticipated events in the crypto world. The crypto community and investors can monitor further developments regarding CUANSWAP and look forward to its official launch on Bitunix, CoinMarketCap & CoinGecko. As CUANSWAP's journey continues, we can expect to see more innovations that will enrich the global crypto ecosystem.

In other words, CUANSWAP (CUAN) is on its way to becoming a major player in the crypto world, and the listing on Bitunix, CoinMarketCap is a significant step toward realizing this vision. Let's watch with enthusiasm how this project will develop and contribute to the growth of the global crypto ecosystem.

In addition to being listed on Bitunix, CoinMarketCap, CUANSWAP also plans to be listed on the largest crypto exchange in Indonesia.

Roadmap

- Q4 2023:
 - PancakeSwap listing
 - CMC Listing
 - Verified BSC SCAN
 - CEX Listing (bitunix & azbit).
- Q1 2024:
 - Listing Indonesian Local Exchange (Indodax)
 - Open Program Staking CuanSwap cuanstake.com
 - Open all NFT Project
 - Cuan staked Web3
- Q2 2024
 - CUAN Q Token Utility
 - CUAN Q Web3 Launch
 - Build CUAN CAFE & EATERY
 - Build Office CUANSWAP in Primary Location Malang City with 2.050 m2 (NFT PROPERTY)
- Q3 2024
 - NFT Traveling Partnership
 - Listing Tier 1 Exchange
 - NFT EDUCATION partnership
- Q4 2024
 - Build Villa in Tanah Lot (Private Asset of CEO) 300m2
 - Launch PrivateAssistant Apps
 - Real World Asset Integration Technology

Development Team

The CUANSWAP (CUAN) development team is at the core of the project's success. Here are some key team members who play vital roles in the development of CUANSWAP (CUAN):

Development Team

1. Muh Haady Firmansyah

- Role: CEO

- Description: Muh Haady Firmansyah serves as the CEO of the CUANSWAP project. In his role, he leads the strategic direction and development of CUANSWAP, a crypto project with a unique focus. His leadership is instrumental in guiding CUANSWAP towards its distinctive goals within the crypto space, demonstrating a strong commitment to innovation and success.

2. Jamayanto

- Role: CMO

- Description: Jamayanto is the Chief Marketing Officer (CMO) of CUANSWAP, playing a pivotal role in overseeing marketing strategies and brand development for CUANSWAP. In his capacity as CMO, Jamayanto is responsible for promoting the project to the audience, building awareness, and creating effective marketing strategies to support CUANSWAP's growth within the crypto industry. His expertise in marketing and brand development is a valuable asset in achieving CUANSWAP's goals.

3. Asbudi Anugrah P

- Role: CTO

- Description: Asbudi Anugrah P is the Chief Technology Officer (CTO) of CUANSWAP,

responsible for overseeing the technical aspects of the project. In his role as CTO, Asbudi Anugrah P plays a crucial part in driving the development and implementation of technology-related strategies within CUANSWAP. His expertise in technology and innovation is instrumental in advancing CUANSWAP's technical solutions and ensuring the project's success in the crypto space.

4. Riswan Mursidin

- Role: COO

- Description: As the Chief Operating Officer (COO) of CUANSWAP,

Riswan Mursidin plays a pivotal role in overseeing the day-to-day operational aspects of the project. With a keen eye for efficiency and a dedication to achieving strategic objectives, Riswan ensures that CUANSWAP's operations run smoothly and align with its broader vision.

His responsibilities encompass a wide array of operational facets, including project management, resource allocation, and process optimization. Riswan is committed to streamlining workflows, fostering collaboration within the team, and implementing best practices to maximize productivity and effectiveness.

Riswan Mursidin's role as COO is instrumental in driving CUANSWAP's mission to bridge the gap between cryptocurrency and real-world assets, and his leadership is a cornerstone in the project's journey towards success and innovation.

Strategic Partnerships

In addition to the core development team, CUANSWAP (CUAN) has forged strategic partnerships with various stakeholders, including financial auditors, business partners, and legal consultants who ensure compliance and project success.

The development team is a crucial foundation in realizing the vision of CUANSWAP (CUAN) and ensuring the technical success of the project.
